on

**Application of 5G Wireless to Internet of Things
(IoT)**

By

Prof. Suresh Borkar

Date: 31st March, 2017 (Friday)

Time: 4.00 PM

Venue: IIA 101 Seminar Hall, Ground Floor, Bharti School

Dr. Suresh Borkar joined IIT in 2006. He has been on the adjunct faculty in the ECE department since 1982 teaching courses in 3G Wireless, Computer Architecture, Probability and Random Variables, Switching Theory, Reliability Theory, Hardware Testing among others.

Dr. Borkar's primary professional experience has been in Computers, Telecom Networks, and Wireless systems while he was at Lucent Technologies since 1980. In the computers and networking areas, he has contributed to fault recovery, operating system, and networking software, performance, systems engineering, architecture, and product management. In the Telecom Networks, he has been very active in call processing, routing, communications protocols, and real time and distributed Operating systems developments. He has also been responsible for development of packet networks and integration, testing, and delivery of the 3G Wireless systems.

Note: We look forward to your participation. Please be seated by 3.30 pm.
